

Future Modifications

- Move E2 A/B to port B 18/19 for CLC?
(will probably be removed anyway)
- RGB on PWM/CLC capable port?
RGB on separate CLC capable ports?
- Make R27-R29 0402?
not enough power?
- Use PIC18F1718 1/10 instead of 1/10?
ground fill problems?
